

CORE 7% Iron Plus

For Prevention or Correction of Iron Deficiency in Most Crops

0-0-0

General Information

CORE 7% IRON PLUS liquid micronutrient compound containing sulfur and iron. It is designed for foliar application for prevention and correction of iron deficiency. It is recommended for use as an additive in liquid fertilizers. It is compatible with most agricultural pesticides.

CORE 7% IRON PLUS tank-mixed in water will decrease alkaline hydrolysis associated with organo-phosphate pesticides.

CORE 7% IRON PLUS is NOT RECOMMENDED for use with pesticides that are not compatible with acid materials. **DO NOT MIX WITH HIGH PHOSPHATE LIQUID FERTILIZERS.**

Directions for Use

CORE 7% IRON PLUS may be applied by ground or aerial application. Use sufficient water for thorough and uniform coverage of foliage or soil. Foliar application is recommended when fast correction is desired. For best results use a non-ionic surfactant.

Mixing Instructions: Always check compatibility before mixing. Use only the following sequence:

1. Water
2. CORE 7% IRON PLUS
3. Pesticides or fertilizers

Recommended Rates

Rates and timing of application are dependent on local conditions and should always be made as a result of soil and/or plant tissue analysis. Local climatic conditions, infestations and other factors affect the performance of any pesticide or nutritional spray. Therefore, consult your local chemical company representative or agricultural extension agent for specific use information in your area.
